

THE BUTTON THAT MAKES JEANS.

Jeans buttons – firmly on denim

Jeans buttons are attached with an aluminium tack connection. Below you will find a wide range of different embossings, finishes and shapes – e.g. typical antique copper, burnished, custom embossing, spray-lacquered, matt or high-gloss, matching the textile pattern, custom printed and sealed with protective lacquer.

SMOOTH · Ø 17 MM

Jeans button plain

The neutral jeans button with smooth cap suits any denim – in black, nickel-plated, brass gold or burnished.

Attached with jeans tack

Jeans buttons are attached with an **aluminium tack connection**: the jeans tack is pushed through the fabric from the inside and pressed together with the button cap. The **Ø** figure is the **cap diameter**.

Jeans tack

Jeans button plain

Black
